

## Trustees Report 2022

The outdoor project of building the outdoor ramp, reconstruction of the front stairs and landing area in the front of the church building were completed in the fall of 2021. Dedication of the space was held in June 2022.

Rugs in the basement and entrance area were professionally cleaned by Corner to Corner Cleaning in June 2022.

Programmable Thermostats were installed in the sanctuary and entrance area to help reduce heating costs when the building is not in use.

AMC kids started a cleanup of the front of the sanctuary in December which then spurred clean-up of the storage rooms in the basement of the church resulting in re-organizing and purging of some items.

We held one wedding and 4 funerals this year. We plan to do some research with other area churches and then update our rental agreement and rates in spring.
